Our Treasure

WHERE TRAVEL IS CRAFTED LIKE A JEWEL

Escales Signature was born from the meeting of two women from opposite ends of the world.

Brought together by fate in Morocco, they discovered a shared sensitivity for rare places and human stories. The language of jewellery soon felt like an obvious choice.

They were about to imagine journeys like settings for precious memories ...

A woman with long hair, wearing a long, flowing white dress with a subtle pattern, stands barefoot on the edge of a swimming pool. She is looking out over a vast, scenic landscape of rolling green mountains and valleys. The scene is framed by dark, vertical elements on either side, possibly window frames or pillars, which are slightly out of focus. The overall mood is serene and contemplative.

A tailor-made journey
is a jewel.
Our travel designers
are its setters.

Séjour bijoux trouvés →

Séjour Zellige du Riad

They were about to imagine

jewels made of memories ...

The genesis of a journey lies in the same patience as the creation of a jewel. It is first sketched, then gradually composed through the lands it crosses.

Landscapes, places and encounters come together with precision, like the stones of a jewel, patiently cut and polished before finding their place in a setting.

Each itinerary becomes a unique piece, a travel jewel revealed by the light of Morocco.

The Ruby

THE REFLECTION OF MARRAKECH

In Marrakech's Medina, glowing in deep ruby tones, the narrow streets sparkle with countless reflections. Vivid fabrics, hammered copper, and the aroma of spices catch the light of the setting sun, each detail like a facet of a precious jewel.

Jemaa el-Fna, the city's beating heart, flows with life, warmed by the rhythm of musicians and the hum of merchants, a living stone shaped by energy and light.
